The radar chart compares 12 datasets across 12 metrics. The metrics are: standard, Pitts250k, Pitts30k, Tokyo 24/7, MSLS-val, Nordland, St Lucia, Oxford, AmsterTime, 17 Places, Baidu Mall, and Gardens Point. The datasets are: Mid-Atlantic, Laurel, Hawkins, Nardo-Air R, Nardo-Air, VP-Air, and AmsterTime. The chart shows that the 'standard' dataset generally performs best across most metrics, while 'AmsterTime' performs best in the 'AmsterTime' metric.
